REPORTS.

To the Editor of the " Daily Prevs" DEAR SIR .- As if may interest some of the numerous, teaders of your paper, we give below, the particular account of the loss of the American Brigantine Wandering Wave, which Incorporated by National Decrees of 7th and 8th left your port in Nov last, for Shanghai and errived off that port Dec. 15th. But while proceeding through the inside passage of the Chusan & Saddle Island anchored on the morning of Dec. 17th in the neighbourhood of the Heshan Island and while the crew were getting breakfast without having the slightest suspition of being attacked, several Ningpo boats dropped alongside filled with pirates and who rushed upon deck and before the crew could arm themselves they were cut in pieces. Greenwood was cut down, and driven over Melbourne, Adelaide, Brisbane, Hubart-town, &c. laid open by a cutlass and receiving several shots (one of which passed throngh his shoulder)-succeeded in fighting his way to a

TITH reference to Miss AMELIA BAILEY'S no-Tice, appearing in the Dault Passe of this morning, I beg to say, in my own name, and in that of Singnor GRosst and Mr. Ropopeo Strp. that the terms offered to us by Miss" BAILES

through her Secretary Mr. SETTE, were quite the reverse of liberal. I may also mention that, though Mr. Sier agreed to receive one-third of the net proceeds of Miss BAILET's last concert, at which nearly three hundred ladies and gentlemen were present, the sum tendered to him by Bir. Surre the Secretary, was \$53, which | very old Pentae Constantia. he means to hand over to some local charity. Dissatisfaction with Mr. SMYTH, and no unwillingness to assist Miss Barney, has been the cause of our united refusal to act in concert with that C. WAGNER.

Whilst therefore we approve of the establishment of a mint here, we entirely condemn, not only the manner in which the undertaking is attempted to be forced upon the colony, but the prostitution of the project to the private aggrandisement of Governor Hobinson who actually claims the honor of carsing the

scheme to emanate from himself, at the expense of the intereste he is haid to represen and motestal on in second of the We have altendy, more than once, adverte o the fact of Governor Robiuson having despensed with services of the Legislative Counpertaining measuring in all 705.75 superficial feet | cil in the small currency scheme, and arrang-..... \$15,000 | ing the matter himself, claiming honor and credit for baving so done. The Governor, from his position, had of course access to the best information, and we are free to admit that the scheme he adopted was the proper one. That however is beside the He should have consulted the Legislative Council—he should have laid arbill. on the table for discussion embracing the scheme, and he should have had a vote pass-

ed for the money which he sent to London to carry the scheme out. His appropriation of money which had not been voted, was pre icsely as illegal as though he had embezzled it. In our issue of vesterday, we reproduced from the Gazette the correspondence between Governor Robinson and the Home authorities relative to this Mint scheme, and if any o our readers should suppose that we are drawing on our imagination for our facts, or that we are putting a wrong construction on Governor Robinson's motives in making the arrangements be did as to the small currency, we refer them to the second letter of the series -say the despatch of Sir F. Rogars' (Colouisl Office) to G. A. Hamilton (Lords Commissioners of the Treasury.) Sir F.

Rogers there says "that the care "ability which Sir II. Itobinson brought to the consideration of the currency question pives considerable, weight to his opinion on the present subject. " The conclading words "the present subject" make t clear that the "currency question" referred to, is the small coin affair. Of that there can be no doubt. Therefore Governor binson has not only claimed a plume for doing

his duty in an improper manner, but he has done so before the currency he claims to have arranged and invented, ever suw the daylight in this colony. Even if we overlook the facts of the case as they refer to his contemptuous disregard of the Legislative Council, and to his apprepriating money which was never voted-even if we allow that " care and ability" had been exercised, and talent too, on the small currency scheme, surely no reward nor credit should be claimed until the currency in question had been brought into cir-

> Dutch Reinforcements to Japan. It has been decided to reinforce very materially the Dutch naval squadron in the waters of Japan. The Staats Courants announces that has Netherlands Majesty's steam corvettes Djambi 16 guns ; Vice-Admiral Koopman, 14 guns ; Citadel of Antwerp, 14 guns, and Amsterdam 8 paddlewheel, have already been despatched from Java by the Governor-General. Desputches have been sent out by the last mail to Surinam with orders to the fourth class ten gun screw corvettes Stavoren and Delfzyl to proceed immediately to Japan; and the following abips of war are now beng fitted out with the greatest possible despatch for the same destination. At the Royal Dockyard at Nieuwe Deep, the steam frigate Admis ral Van Wassonaer, 45 gnns, and the screw corvottes Princess Amelia 10 guns und Metalen Kruis 10 guns, at Helvoetsluys the fourth class screw corvettes Saestdyk, 10 guns, and the Coc-horn, 10 guns; and at Vlissingen the steam frigate Adolph of Vassau, 51 guns. Thus these reinforcement comprise an imposing force of 12 vessels with 223 guns. The screw corvette Zout man, 16 guos, will probably be added to the

GENERAL POST-OFFICE, London, 19th March, 1863. d. Sin,-I beg to inform you that a letter has been received from the Post-master General of Hongkong, stating that it has come to his knowledge that some of the large houses at Hongkong and ot Shanghai are in the habit of sending their "correspondence between those places" by the Packets of the Peninsular & Oriental Steam Na-vigation Company, otherwise than in the Mail; which gives such firms an advantage over that portion of the community who adopt the legitimate means of transmitting their correspon-"donce." Lhave to request that the Directors of the Peninsular & Oriental Steam Navigation Company will have the goodness to cause enquiry to be made into the alleged illegal conveyance of letters by their Packets between Shanghai and Hougkong, and acquaint me with the result. Sir,-I have the honor by order of the Directors to acknowledge the receipt of your letter o 19th Inst., informing their that a letter bad been received from the Post-master General of Hengkong, stating that it has come to his knowledge that some of the large houses at Hongkong and "at Shanghai are in the habit of sending their cor-"respondence between those places" by Packets of ther & Peninsula Oriental Steam Navigation Company; otherwise than in the Mails; " which "gives such firms an advantage over that portion of the community who adopt the legitimate " means of transmitting their correspondence." In reply I am desired to state that if any such practice has existed it has been entirely without the knowledge and in direct opposition with standing orders of the Directors and to assure the Post-master General that the Company's Superintendent in China will be instructed by the present outgoing Mail to investigate the matter and to prevent a recurrence of similar irregula-

CIRCULAR. THE Provisional Committee for promotting the prection of a City Hall in Hongkung, desire to report the progress that has been made, up to the close of the present year, in furthering the object for which they are associated. The principal difficulty connected with this undertaking has been to procure a site that should be at once suitable for the purpose, and in the gift of Government; it being obvious that the present high value of Land within the limits of the City made it impossible that any sum of money, which the Committee could expect to com-

mand, would prove adequate if ground had to be An application for a site at the Western Cornor of the Parade Ground, immediately under Messrs, A. Heard & Co.'s Office, was promptly and liberally conceded, but, before any formal grant of the Land had been made, it was fortua nately discovered that difficulties, previously thought bisuperable, to the occupation of the piece of ground now partially occupied by the Harbour Master's Office, were susceptible of remoral; and the Committee have the satisfaction of stacing that a recommendation for a grant of that site (undoubtedly the most eligible for the purposes of a City Hall in the whole Colony) hus, with the approval of the Military Authorities, been forwarded by the local Government to the Secretary of State for the Colonies, and that the position of the Drinking Fountain (presented to the City by Mr. John Dent, and now in course of erection) has been determined with special reference to the dimensions and situation of the

proposed Building The space which, is it confidently hoped, will be thus placed at the disposal of the Committee will enable them to embrace in their scheme the following accompdation :---I. A Public Hall, to be called the St. Andrew's Hall, in acknowledgment of a sum of Five Thousand Dollars, which has been voted to the undertaking from the surplus Funds of the late St. Andrew's School. This room will be available for

Public Meetings, Public Dinners, Balle, Concerte, and other public purposes. II. A Supper Room adjoining the Hall, and which, together with the Hall, can be used, when not specially required for other purposes, as an '11L A Room for the Chamber of Commerce. where files of Newspapers, Prices Current, Books

of Commercial reference and Telegrams, will be opened to the use of Subscribers to that Insti-IV. A Public Library for the objects stated by the Trustees of the Morrison Education Society in their printed Circular of the 1st May last. V. A permanent Theatre, which will encourage visits to Hongkong by musical and histrionic artists from other parts of the East, and will obviate the necessary beavy and unsatisfactory out-

lay which the frequent erection of temporary Theatre has hitherto entailed. The remainder of the space will be absorbed by the Harbour Muster's Office, which will be removed from its present position to one appropriated for Medecine Chests supplied at short notice. building, in accordance with the proposal sub- of the best Drugs from England, and

Finished plans have not yet been prepared, and it is proposed that, at the proper time, they should be thrown open to competition, but the Committec have satisfied themselves that the space they bave applied for will be ample for carrying out the various objects enumerated above on a scale which will render the intended editice an ornament to the City, a convenience to the public, and in efery way worthy of a Colony wnose fapid growth and progress are the surest proofs of its wealth,

enterprise and prosperity. The urgency of the want that exists for a Publie Building of this nature need scarcely be dilated on. Without divorting the Club House from its legitimate uses, at a great sacrifice of the convenienge of its members, there is not in the length and breadth of the City a suitable room which can be commanded for any object of general or social interest. The difficulties that altended the Innuguration Dinner of the Volunteers, the abandonment last winter of a Masonic Ball for want of a room to hold it in, and the disadvantages to which the professional Artists at present here are exposed, are a few instances amongst very many of the inconveniences occasioned by the the want of a City Hall, a want, the Committee believe, which is not shared by any other foreign Community of equal importance East of the Cape, a want which has been recently supplied at Singapore and which they trust will not be allowed much longer to serve as an indication of an absence of public spirit in

.The preservation of the valuable collections of Books in the care of the Trustees of the Morrison Education Society, and which are threatened with decay for want of a proper place of deposit, is an object which especially commends itself as a matter of public import in a region so remote from the great centres of civilization, and where the want application to the Captain Superintendent. of standard works of reference and solld instruction makes itself continually felt.

In reference to the important question of Funds. the Committee are glad to be able to announce that they have actually in band a sum of upwards of Fifteen Thousand Dollars, which is expected to be increased to upwards of Twenty Thousand Dollars by a Donation from the Chamber of Commerce. This amount, which has been collected from various sources without any appeal baving yet been made to the Community generally, fall, however, obviously short of what will be required for the purposes contemplated, and the Committee trust that further contributions will be liberally and spontaneously tendered in support, of the undertaking. Old residents, in retiring from the Colony may perhaps adopt the example of some who have preceded them and evince their interest in its progress and in the well-being of their successors by a contribution to the Fund. The payment of interest on the Canton claims also affords an onportunity for Donations of sums of no great imortance individually, but which in the aggregate would materially assist the common object. The Provisional Committee in concluding their present report, liave thankfully to acknowledge the receipt of various amounts from Mr. John Dent, Mr. C. F. Still, Mr. Edward Webb, the late Mr. Angus Fletcher, the Choral Society of Hongkong.

Loss of the British Vessels.

"MEERSCHAUM" AND. "KING ARTHUR." We are enabled to publish the following parti culars connected with the loss of these two vesicls The Meerschaum. Jackson master, owned in Liverpool, left Manila on the 23rd October bound. to Batavia, having on board a cargo of two bundred and seventy five cases of oigars, fourteen hundred coils of rope, and other small packages. On the morning of the 1st ultimo at 4.30 A.m. during a squall and heavy thick rate, a send bank a head was reported. The belm was immediately put hard a starboard, but the vessel struck almost instantly and owing to the heavy cross swall never paid off in the least, but lay over on her port bilge broadside to the reef, striking heavily at times. Every preparation was then made to endeavour to get her off the reef but no sooner were the hawser and anchor got ready than the ship was bilged on both sides with 14 feet of the into deep water. The weather continued so squally that it was not until the morning of the 4th that the long boat could be lowered, and the mate with ton of the crew sent to Manila for assistance. The ship was then displantled and remained in the same state until the merning of the 9th when the weather (began to get unsettled again and strong winds with heavy squalls and rain from the N. N. W. to N. N. E. were experienced. At 9.30 r.m. on the night of the 11th high seas accompapied by violent squalls raged, and about 10 P.W. the versel righted and struck heavily. The masts were out away and at 10 80 the vessel fell over on her starboard bilge deck to the sea, the waves making a clean breach all over her. After 25 minutes she fell over, the vessel parted into two. pieces between the mainmast and the mainhatch. Orders were then given to lower the only boat self, and the master and crew went to a rock and romained there until next morning, when the forepart of the vessel was discovered to be some 300 feet's part from the after portion, The decided that it would be useless remaining any longer by the wreck, and so with the rest of the crew left her in a hoat for Singapore with 4 gallons of water and 60 lbs of bread.
